

# At Home Tips

Grades 7 – 12

- 1. Look for contexts to support your child to develop practical Math experiences**
  - ◆ Baking and cooking
  - ◆ banking, budgeting
  - ◆ cell phone plans
  - ◆ paycheques
- 2. Talk to your child about Math class**
  - ◆ What do you do when have difficulty solving a Math problem?
  - ◆ Show me something you have learned in Math class.
  - ◆ What Math tools help you most?
- 3. Develop partnerships with your child's Math teacher**
  - ◆ Know what the expectations for the year are
- 4. Encourage your child to seek out support when required**
  - ◆ From the teacher
  - ◆ Homework Help (online support for grades 7-10)
  - ◆ View online Math tutorials such as Khan Academy .
- 5. Investigate together, the role of Math in a variety of careers that your teen is interested in**

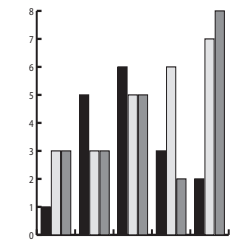

## Vision

Achieving Excellence in Catholic Education through  
Learning, Leadership and Service

Peterborough Victoria
