| Subject:       | Funding through the Federal Climate Action Incentive Fund |
| Recommended A  | Action(s):  |

#### **Background:**

On December 18, 2020 the Ministry of Education issued memo 2020:B26 Intake Request for Funding through the Federal Climate Action Incentive Fund. First announced quite some time ago, there have been extensive operational discussions between the province and the federal government that delayed the release of this funding.

The CAIF is a time-limited, cost-matching program for eligible and approved expenditures incurred by school boards between **May 15, 2020 and March 31, 2021**. Projects must be approved as eligible by the federal government prior to reimbursement and eligible projects must be completed by March 31, 2021.

The intake template is to be submitted by January 15, 2021 as the ministry needs to review, finalize and send project packages to the federal government by January 29, 2021. This is to ensure the federal government can review and approve projects by the March 31, 2021 deadline.

The objectives of the CAIF are to reduce energy usage, achieve cost savings and reduce greenhouse gas emissions. For every dollar provided by Canada, an additional \$1.50 must be spent by school boards towards retrofit projects that meet those objectives. The federal

government is also requiring that a minimum of 25% of the funding be directed to non-urban areas (non-urban areas have a population of less than 100,000 people and have been prepopulated on the template.)

\$362,776

PVNCCDSB maximum allocation: \$367,257

Dollar value of projects identified on the intake request template: \$906,940

- Roof replacements (3) with improved insulation factors
- Boiler replacement to energy efficient model
- Lighting replacement (2) with new LED lighting
