curricular pathways and address disproportionate numbers of children who are in the applied pathway from specific demographics. This was evidenced by historic data that showed a disproportionate number of PVNC Catholic Grade 9 and 10 students with an individual education plan (IEP) being enrolled in applied courses compared to academic courses. Supports and Instructional Strategies that ensure success for all students in destreamed courses include Universal Design for Learning, Building Thinking Classrooms, Assessment for Learning, Culturally Relevant and Responsive Pedagogy, Grade 8/9 Math Teacher Collaboration, and the Grade 9 Destreamed Writing Project.

Subject:	2023-2024 Draft Budget Information

Recommended Action(s): That the Committee of the Whole recommend to the Board that the 2023-2024 Consolidated Expenses Budget, in the amount of \$211,257,900 be approved as presented.

Background:

On April 17, 2023, the Ministry of Education released the funding regulations for 2023-2024. Since that time, administration has been reviewing its enrolment projections and related grant calculations, staffing allocations, resource needs and departmental requirements. The core objective of the 2023-24 budget process will be to match the Strategic and Operational priorities of the Peterborough Victoria Northumberland and Clarington Catholic District School Board with available resources, and consequently develop a budget that is compliant with the Education Act.

Addressing Our Strategic Priorities:

Actions planned for 2023-24 are intended to reflect the Board's vision: Creating a culture of faith, hope and love to ensure equity and well-being. The Board's vision and mission are operationalized via the 2022-23 strategic pillars, which are:

- Being Creative
- Being Well
- Being Community

Our Strategic Priorities are:

- Inspiring Faith
- Valuing Relationships
- Nurturing Mental Health & Well-being
- Excellence in Teaching & Learning
- Ensuring Equity
- Expanding Technology
- Protecting the Environment
- Maximizing Resources

The following reports and updates were brought forward to trustees this fiscal year:

12 June 2023	Committee of the Whole: 2023-2024 Draft Budget Information

Key components and/or changes within the Grants for Student Needs (GSN) for 2023-24

The GSN for 2023-2024 was released in concert with the Better Schools and Student Outcomes Act (Bill 98). The legislation is intended to "lay the groundwork for a truly world-class education system unified with a singular focus: to improve student outcomes in important life-long skills like reading, writing and math." (Ministry of Education Backgrounder, 17 April 2023)

The Ministry of Education has identified these priorities:

- Accountability and transparency
- Governance and leadership
- Maximizing capital assets
- Teacher training and oversight
- Consistent information and approaches to student learning

The Ministry of Education has chosen to focus on making key investments in the following 11 areas (Memorandum B03 - Better Outcomes for Students, 17 April 2023):

- Early Reading
- Math
- De-streaming
- Job-readiness
- Mental Health
- Human Rights and Inclusion
- Special Education
- Student Safety
- Student Transportation
- Capital
- Remote Learning Administration (for those Boards running virtual schools)

Local Challenges for 2023-24

Recent economic factors have had significant impacts on education budgets. Inflation and rising costs of living have had a broad impact on Board expenses, including construction, fuel, technology and other supplies and services on which we rely. While the GSN included some support for inflation, shown as a 2% increase in the non-staff portion of the School Operations Allocation, there are many other areas of the budget which remained constant, not addressing these additional costs and thereby reducing the buying power for our budget. Other pressures are noted below:

- Transportation
 - Special Transportation via vans or taxis not funded in the current allocation

- Boards have been directed to pay increases in driver compensation and retention bonuses from our allocation
- Operator agreements not aligned with Transportation allocation

Indigenous Education

 The projected Indigenous Education Grant for 2023-2024 is significantly lower than 2022-2023 and will create a budget pressure for 2023-2024 and in 2024-2025 when the mitigation funding expires.

Special Education

 The Board continues to spend over our allocated budget for Special Education. Changes to the Special Incident Portion (SIP) funding allocation helped with this pressure but the Board will have to ensure we are prepared for a probable reduction in SIP funding for 2024/2025.

Sick Leave

Employee absences continue to put pressure on our budget. 2023-2024
 will see the return of the Board's Attendance Support Program.

Expenditures in Support of Catholic Education

On an annual basis, budget decisions are made in support of the Board's mission to accompany our students as we strive for excellence in Catholic Education and to ...educate students in faith-filled, loving, safe, inclusive schools to develop the God-given abilities of each person.

These expenditures are funded using components of the many allocations provided in the GSN. Some of these expenditures are explicitly organized as part of the Faith portfolio. The more significant of these are as follows:

Centrally assigned staff: Religion and Family Life Consultant \$126,000

Support for resources and professional development regarding Religion and Family Life, including Diocesan contract \$223,086

Secondary School Chaplaincy Leads \$517,547

Total \$866,633

In addition, there are many expenditures in support of Catholic education incurred at the school level that are not individually captured for reporting purposes.

Resources specifically related to the Religion and Family Life Program are being phased in over a number of years. The 2023-24 budget continues an allocation to purchase resources related to this implementation. Resources will continue to be needed in future years to provide the annual rollout of additional grades and for professional development to support the new resources.

Projected 2023-2024 School Staffing Allocations

Funding for school boards through the Grants for Student Needs (GSN) is calculated using many different formulae to support particular components of classroom education. The Pupil Foundation Allocation formulae make significant use of benchmarks for staffing, salaries and benefits. The number of teaching staff allocated within the school system must conform to a number of regulatory requirements regarding Class sizes as follows:

- Full Day Kindergarten: class size average of 26
- Primary Classes: capped at 23, but 90% of classes must be 20 students or below
- Junior and Intermediate Classes: class size average of 24.5
- Secondary School: class size average of 23 except for E-learning classes which may have an average class size of 30.

The differences experienced between the number of teachers funded and the number of teachers allocated/staffed by boards is usually as a result of the pattern of dispersion of students within the board's geographic area.

School and System Organization

Schools are being organized for 2023-24 in a manner that will achieve the Ministry targets on class size, based on registration confirmed in the Spring 2023. Administration anticipates additional students will be enrolling prior to September, and changes may be necessary to reorganize classes at schools in September in order to meet the class size guidelines.

Staff allocations for central departments have been reviewed for the 2023-24 budget period in order to implement our Strategic Priorities, address the key Ministry initiatives, and meet legislative/operational due diligence and risk management. These changes affect the following areas for 2023-24:

Student Success:

- Staff sections to support the Specialist High Skills Majors initiatives
- Staff sections to support De-Streaming and Transitions to Secondary

Learning Support Services:

- School Math Facilitators 3.0 FTE
- Staff to Support Reading Interventions 4.0 FTE

Special Education Services:

• Realignment of Central Educational Assistant Support and Coordination

Indigenous Education:

- Dependent on Ministry Direction will maintain the current 2.0 FTE Consultants
- Increased the teaching FTE in Elementary by .33 FTE for Indigenous Language and added a 1.0 FTE in Secondary for Indigenous Language and Student Success

Faith and Equity:

Maintaining a 1.0 FTE Equity Lead in the absence of targeted funding

Virtual School:

Staff attached to the virtual school have been reassigned to physical locations.

Labour Related Funding

The Ministry has made updates to the salary benchmarks, incorporating the following changes:

For CUPE staff, there was an increase of \$1 per hour in the 2022-2023 school year compared to the rates in 2020-2021. Furthermore, there will be an additional \$1 per hour increase scheduled for the 2023-2024 school year. This funding allocation aligns with the recently ratified CUPE central and local collective agreement.

Regarding teacher salary benchmarks, a provision for a 1.25% increase has been made for the 2022-2023 school year. Additionally, there is another 1.25% increase set for the 2023-2024 school year. As the teacher collective agreement has not been finalized yet, this increase is accounted for as a contingent labor provision.

These adjustments to the salary benchmarks aim to address the evolving needs and agreements within the education sector, ensuring fair compensation for CUPE staff and teachers while taking into account the ongoing negotiations surrounding the teacher collective agreement.

The ministry is continuing to provide the Supports for Students Fund (SSF). The CUPE portion of this funding is part of the collective bargaining agreement. The OECTA portion will continue to be used for its intended purpose subject to ongoing labour discussions.

Expiration of Funding - Learning Recovery

The Education Worker Protection Fund was established through the central agreement negotiated during collective bargaining for CUPE in 2019. It was established to reinstate CUPE positions displaced by the expiry of job security provisions in 2019. Provincially, the Ministry provided funding of up to \$20,000,000 annually across school boards where CUPE had a local presence. The Board received a significant allocation of funds and as a result reinstated/maintained a number of support staff positions in various classifications across the school system. When these funds expired in 2022, the Board was able to transition many of these positions to be supported by the Covid-19 Learning Recovery Fund for 2022-2023. This was a time-limited fund and as expected, the funding is not available for 2023-2024 and the Board is forced to reduce FTE for these positions.

Accumulated Surplus

School boards are required to create budgets that are drafted in accordance with Public Sector Accounting Board (PSAB) reporting requirements, and which are in compliance with the Education Act. Generally, compliance with the Education Act requires total spending to be equal to or less than total revenue. There are circumstances where an in-year deficit is permissible if there were prior surpluses (called Accumulated Surplus).

The draw on the accumulated surplus is limited to ensure this action does not place the board in undue financial risk. The draw on accumulated surplus is limited to the lesser of:

- The board's Accumulated Surplus for the preceding year, and
- One percent of the board's operating revenue (approximately \$2.1 million)

For 2023-24, the draft budget is compliant for the purposes of the Education Act, and will match total revenue (i.e. balanced)

The estimated balance of the Operating Accumulated Surplus for the open of the 2023-24 budget is \$25,371,782 and at year end we expect the balance to be 25,037,518.

Asset Retirement Obligations (ARO) – starting with the 2022-23 Financial Statements and for the 2023-24 Budget school boards are required to report obligations associated with the retirement of tangible capital assets (TCA) in accordance with Public Sector Accounting Standards. An example of an ARO is a septic system. The board has estimated the ARO liability based on best estimates from our consultants, facilities staff and used the costing methodology provided by the Ministry of Education. As part of the boards 2022-23 Financial Statements the board will record a liability for the estimate of ARO liability and an offsetting increase in the carrying amount of the associated tangible capital asset. The estimated ARO liability is \$9,749,600 and the net book value of the offsetting TCA is \$5,041,107 creating a net accumulated deficit of \$4,708,493 which is unavailable for compliance. The capitalized TCA is amortized over the useful life of the

asset which creates an annual amortization expense with no offsetting amortization of deferred capital contributions revenue. This amortization creates an operating deficit for accounting purposes, the amortization is not considered when determining the board's compliance surplus/deficit.
