

### Results of Student Surveys - St. Joseph Cobourg

	<b>Timestamp</b>	<b>Please let us know which school you are from:</b>	<b>Please share what you see as the positive aspects of the preferred accommodation option as outlined in the Initial Staff Report.</b>	<b>Please share what you see as the challenges of the preferred accommodation option as outlined in the Initial Staff Report.</b>	<b>From the Initial Staff Report, which option do you feel is the most desirable outcome for the Cobourg students and families?</b>	<b>From the Initial Staff Report, which option do you feel is the least desirable outcome for the Cobourg students and families?</b>	<b>Are you aware that you can submit comments at any time during this process (CobourgARC@pvnccdsb.on.ca), not just at public sessions? All written comments are posted on the board website.</b>
1	16-Jun-17	St. Joseph CES student	Students get a bigger school with less split grades and yard space to use/play on.	Principal, teachers and staff will lose jobs. It will be hard for the students to function with their school being renovated.	Option 3	Option 2	Yes
2	16-Jun-17	St. Joseph CES student	Cobourg will have a nice school. Kids will have a yard and grass to play on.	People will lose their job or will be moved to other school.	Option 4	Option 2	No
3	16-Jun-17	St. Joseph CES student	Bigger school yard, grass, less split grades.	Bigger schools tend to have more problems. Teachers and Principals will lose job. Less teachers and principals.	Option 4	Option 1	Yes
4	16-Jun-17	St. Joseph CES student	The positives are kids will be in bigger school community. Less split grades. Play on grass.	Problems would be to make a new school or addition would cost and take time.	Option 3	Option 2	Yes
5	16-Jun-17	St. Joseph CES student	A bigger school has grass, a new gym.	Having construction going on - things going on in the school.	Option 3	Option 2	Yes
6	16-Jun-17	St. Joseph CES student	The positive aspects are that they (St. Michael's) kids will get more yard, larger school.	The challenges I see for Option 2 are that at a bigger school – more issues.	Option 2	Option 1	Yes
7	16-Jun-17	St. Joseph CES student	The St. Michael's kids get a newer facility and get a proper playground and field instead of concrete.	Some challenges of building a bigger school for St. Michael's and Notre Dame is that it would be hard to go to school when construction is going on.	Option 4	Option 2	Yes.
8	16-Jun-17	St. Joseph CES student	Less split grades, newer facility, bigger school yard.	More people needing a bus. Teachers losing jobs. Bigger school can lead to more problems. Loss of school supports.	Option 3	Option 4	Yes
9	16-Jun-17	St. Joseph CES student	St. Michael's would have a new school, less split grades. They would get grass and they are not using an old building.	Less teachers in Cobourg. Construction with a bigger school. More problems with transportation. They will have to change the buses.	Option 4	Option 2	Yes.
10	16-Jun-17	St. Joseph CES student	A big school with grass and lots of classes so there won't be as many split classes and St. Michael's is old and outdated so they should upgrade.	There will be less jobs for teachers and principals. Also having a bigger school means more problems.	Option 1	Option 2	Yes.

	Timestamp	Please let us know which school you are from:	Please share what you see as the positive aspects of the preferred accommodation option as outlined in the Initial Staff Report.	Please share what you see as the challenges of the preferred accommodation option as outlined in the Initial Staff Report.	From the Initial Staff Report, which option do you feel is the most desirable outcome for the Cobourg students and families?	From the Initial Staff Report, which option do you feel is the least desirable outcome for the Cobourg students and families?	Are you aware that you can submit comments at any time during this process (CobourgARC@pvnccdsb.on.ca), not just at public sessions? All written comments are posted on the board website.
11	16-Jun-17	St. Joseph CES student	People can meet new people because they will all be in one school.	There would be more problems with students and teachers will lose jobs.	Option 1	Option 2	Yes.
12	16-Jun-17	St. Joseph CES student	St. Michael's is old.	Hard to get to school with construction.	Option 1	Option 3	Yes
13	16-Jun-17	St. Joseph CES student	Because St. Michael's is an old school and they should make a new school and make it better.	Hard to prevent bullying. Some teachers would lose their jobs. There might be more fights. Harder for kind kids.	Option 1	Option 2	Yes
14	16-Jun-17	St. Joseph CES student	St. Michael's which is old and run down can get a new school, less split grades and a better yard with more grass.	Construction at Notre Dame cause lots of noise making for undesirable living conditions, less jobs, more transportation needs. People will lose jobs, bigger school would equal more problems.	Option 4	Option 1	Yes
15	16-Jun-17	St. Joseph CES student	St. Michael's is an old school so they could get a newer school with Notre Dame. They could have less split grades.	Bigger schools mean bigger problems like bullying. They could also lose their jobs.	Option 4	Option 1	Yes
16	16-Jun-17	St. Joseph CES student	I feel that St. Michael's is a very old school and it would be good to close that school and let them move into a nicer and bigger school with nice green grass, less split grades and easier to meet new people.	Well staff members will be either losing their jobs or they will be gaining a new privilege to teach at a new school. There will also be less principals needed.	Option 3	Option 1	Yes
17	16-Jun-17	St. Joseph CES student	Make a bigger school with both Notre Dame and St. Michael's and leave St. Joseph the same.	Bigger problems with the kids, less teams able to participate in sports.	Option 4	Option 1	Yes
18	16-Jun-17	St. Joseph CES student	A positive aspect is that St. Michael's is an older school that should be shutdown, Put the new school with less split grades and also get some grass.	The challenges I see are some staff members will be losing their jobs. Some schools that are bigger have more problems.	Option 3	Option 1	Yes
19	16-Jun-17	St. Joseph CES student	St. Michael's School is going to be a bigger school because it's already an old school that has no grass at all.	There will be less teachers and staff at school so people will be losing their jobs, and the construction so they won't be going to school for a while.	Option 1	Option 3	Yes
20	16-Jun-17	St. Joseph CES student	New school and bigger rooms for kids.	Getting to school. Time taken to build a new school.	Option 3	Option 1	Yes

	Timestamp	Please let us know which school you are from:	Please share what you see as the positive aspects of the preferred accommodation option as outlined in the Initial Staff Report. 21	16-Jun-17	St. Joseph CES student	I think that closing St. Michael's would be good because all the kids can have a yard with grass.	The challenges are that you will have to go to school in construction.	Option 3	Option 2	Yes
22	16-Jun-17	St. Joseph CES student	Less split grades. Has a yard with grass. A new school for everyone.	Loss of jobs; Going to school with construction going on;	Option 3	Option 2	Yes.
23	16-Jun-17	St. Joseph CES student	St. Michael's is old and should be shut down.	More students and less one on one time.			
24	16-Jun-17	St. Joseph CES student	Option 4 would be good because Notre Dame will get a bigger yard with grass and they will get a new school.	Parents would not want to take 50 students away from their friends.	Option 4	Option 1	Yes.
25	16-Jun-17	St. Joseph CES student	Get to meet new people. Kids who do not have a school yard now would then have one. All French Immersion kids get their own school.	Too many school buses.	Option 3	Option 1	Yes
26	16-Jun-17	St. Joseph CES student		Sports teams; the moving of schools.			
27	16-Jun-17	St. Joseph CES student	Building a super school would result in less costs for hydro and construction. A larger school with more kids to make friends with lots of space. New materials, desks, textbooks. St Michael's is old and so is Notre Dame so they need to be torn down anyway.	There be less options for what location of the closest school to their home because they would only be one school.	Option 1	Option 2	Yes
